

Bicycle rack Hi-Lo EVO 3

The ultimate double-decker

Discover Hi-Lo Evo 3, the ultimate double-layer bicycle rack! This two-tier rack, made from durable galvanized steel, instantly doubles your bicycle parking capacity.

Save space without compromising on comfort! Single-sided or double-sided configurations and various center-to-center distances provide the perfect solution for any location.

The robust and integrated gas spring supports lifting the bike, and the innovative wheel holders ensure stable and secure storage of every bicycle.

Opt for comfort, safety and flexibility. Choose Hi-Lo Evo 3!

User benefits

- Theft protection through securing options
- Integrated gas spring for easy lifting
- Low lifting and engagement height for comfort
- Suitable for tire widths from 30 to 60 mm
- Hyper stability provided by innovative wheel holders without wheel clamping

Manager benefits

- Safe and vandalism-resistant multi-level rack for tires up to 60 mm wide
- Flexible choices: can be set up single-sided or double-sided in any order
- Variable center-to-center distances (375 / 400 / 500 / 600 / 700 mm) for capacity or comfort optimization
- Durable, low-maintenance, and circular
- Fast delivery
- Available with powder-coated finish
- Upgradable with charging points for e-bikes
